Pearson Education, Inc., publishing as Scott Foresman 12/31/18	Pearson Language Central - Newcomer	Jim Cummins, et al	2010	K-5		Recommended as a resource LEP program K-2: 57% WIDA 3-5: 51% WIDA
	Notes: Language Central Newcomer is designed as a companion supplement to the Language Central core program. The publisher recommends the Newcomer test as a 14-hour introduction prior to starting the Languge Central curriculum. After review of the program, it was found that the time frame and pacing is unrealistic and students would be insufficiently prepared for participating in mainstream classroom contexts. There is an assumption that all newcomers will have some literacy and first language skills. The appeal of illustrations and format of the student text to learners across a three grade span is questionable, especially for grades 4 and 5. Sociocultural considerations are lacking. Not recommended as a standalone newcomer curriculum.

	Notes: “Resource Only” for beginner thru intermediate levels. Program strength in reading and speaking strands Key Features: Throughout the program, Rosetta Stone develops critical thinking and problem-solving skills essential for real-life communication. The meaning of new words and phrases is communicated through voice, text and pictures as well as previously learned material. Based on these visual and linguistic clues, students understand new meaning in a systematic structure that builds from the very beginning of a new language through everyday proficiency. In this way, the student acquires new vocabulary and language structures the same way they learned their native language.
